## Craft a wine that compliments your style.

Mivino's 'half batch' kit size provides you with the opportunity to craft a single varietal half batch, or to experiment with a winemaking technique long established in wine regions around the world: blending one or more varieties into a single batch.

The goal when blending wines is to combine the unique flavour profiles of different grape varieties to produce a more complex wine that delivers the flavour and aroma characteristics you love. With eight different varietals available, what you craft is up to you.

Ask your RJS Craft Winemaking retailer for varietal and blend recommendations.
